Contract:
I-12-4061

Project:
I-90 Roadway and Bridge
Widening and Reconstruction, Lee Street
To Kennedy Expressway, Phase I Engineering Service

DAMA Consultants utilized VISSIM's microsimulation software in evaluating toll operations, transit accommodation, and access needs surrounding the River Road Toll Plaza and adjacent Rosemont/River Road Transit facility.

The study concluded that plaza lanes are underutilized and toll right-of-way could be released for a BRT Station at the eastern terminus of the Jane Addams Memorial Tollway.
